ABOUT SEARCH

SEARCH, The National Consortium for Justice Information and Statistics, is a national nonprofit organization that plays a critical and enduring leadership role in building and supporting criminal history record information (CHRI) systems and information sharing capabilities throughout the nation.

*SEARCH is comprised of Governor-appointed representatives of every state and territory in the nation. SEARCH Members are the directors of the state criminal history records repositories, where they manage CCH and AFIS systems, as well as statewide information sharing capabilities. SEARCH is **the** national venue through which the states articulate their criminal history and justice information sharing and management needs, priorities, policies, and practice.*

SEARCH Members manage large-scale, statewide information systems to support computerized criminal histories (CCH). They also frequently manage their state's automated fingerprint identification system (AFIS), sex offender registry, warrant system, and a host of other mission-critical information resources that support the Interstate Identification Index (III), National Fingerprint File (NFF), National Instant Criminal Background Check System (NICS), and other critical and operationally relevant systems. The SEARCH Membership Group provides operational and policy perspectives to justice information sharing efforts nationally, and supports daily engagement with state and local law enforcement agencies, prosecutors, courts, corrections, and community release programs.

ABOUT THE 2024 ANNUAL MEETING

The 2024 SEARCH Winter Membership Group Meeting will convene at the DoubleTree by Hilton New Orleans from January 23–25. An abridged agenda is available on the event website (https://meetings.search.org), and we will post a detailed agenda as we confirm speakers. A Membership Roundtable will highlight state-specific plans and priorities, and the meeting will feature presentations on a variety of legislative, operational, and policy topics affecting justice operations and criminal history records management. We also have some very exciting topics with the meeting focused primarily on the work related to the criminal history records. In addition, one representative from each Sponsoring company may participate in a January 24 Industry Roundtable, an open dialogue between the SEARCH Membership and industry solution providers.
